

Calumet Baking Powder is now used in the Army and Navy. For years it has been used by an army of housewives—and that army enlists thousands of recruits every year.

Housewives use Calumet because it produces best results. They judge it by results entirely. Government experts selected Calumet for this same reason—and other reasons too. They looked back of the results. They demanded purity in Baking Powder, and purity in bakings, as well as surety of results.

They selected Calumet because they could secure these desirable qualities—and were certain of getting them. The strongest guarantee you could ask for Calumet's thorough goodness. Try it

On Our Opening Day

we were presented with a beautiful bouquet of chrysanthemums with a card bearing the inscription: "Welcome Our Neighbors."

Signed, HULLIE & MIKE.

All week we have had compliments on our meat and our splendidly equipped store, but it took the chrysanthemums to give it the finishing touch.

Many thanks to Hullie & Mike and to all our patrons.

Watch How the Income Tax Affects YOU

If your salary is \$23 a week, you are exempt from taxation under the war revenue bill, if married. If single you will have to pay Uncle Sam a tax of two percent on the amount you earn in excess of \$1,000. As \$25 per week is \$1,300 a year, your tax will be two percent of \$300 or \$6.

The war revenue tax is levied on "persons," not "men," and so before the first of March next, every single man or woman who makes \$25 per week must appear at the office of the internal revenue collector in their district and make out a schedule.

If he or she owns real estate, an equity in a house, or is paying interest on any form of indebtedness, exemption may be claimed. For instance, if the \$25-a-week man

owns an equity in a residence, paying \$120 as interest on his mortgage, \$100 in taxes and \$50 more in water rents, he will not be required to pay the government any tax whatever.

In other words, his exemptions would cancel the amount of his tax. Where a man owns rented property he may even claim exemption for money spent in repairs. It is a person's "net" income that must be figured in determining what amount is due the government. This means income from all sources, and Uncle Sam is going to be very sure that he gets what is coming to him. Hosts of collectors and deputies are on the job and there is little in the way of taxable income that will escape their attention.

REV. B. E. PARKER ADDRESSES LADIES

Speaks on American Woman's Responsibility at Club Meeting.

Rev. B. E. Parker gave an interesting address on the responsibility of the American woman before the members of the civics department of the Woman's club Thursday afternoon. Preceding the talk the usual business meeting was held with reports from the committees. Mrs. Frank Reese again brought up the matter of a comfort station in Battell park, which has been discussed for some time. Mrs. Reese declared that the situation is steadily growing worse and there is an urgent need that this improvement be supplied at once.

Mrs. J. W. Keller told of the bad conditions of the alleys about town, many of which are choked with tin cans and garbage and other refuse. She also discussed the matter of having the board of health investigate into the milk situation in the city. It was also announced that the civics department has been invited to attend the meeting of the Progress club Friday afternoon at which time Mrs. Daisy Barr will give an address on "Women and Civics." At the next meeting of the Civics club to be held in two weeks, Mayor Gaylor will speak to the women.

Cost Not to be Estimated. In his address Rev. Parker declared that the cost of the war in money and in loss of life can never be accurately estimated. He told of the splendid heroism of the English woman among the nobility as well as among the common people, and declared that already there are more heroines than heroes as a result of the war.

Rev. Parker reviewed the achievements of women over all the world in the various phases of work heretofore associated only with men. They have attempted things apparently impossible of accomplishment and have succeeded nobly. Many of the women of the nobility in France and England now labor all day at the most menial trades, and a great many of the women in the munitions plants of England and the continent were formerly women of great wealth and social standing.

Story of Edith Cavell. The martyr to German barbarity, will be the most lasting and resplendent of any of the war, was the declaration

of the speaker. He paid a high tribute to the brave woman, Alice Fitzhugh, of the Bellevue hospital in New York, who took the slain heroine's place in the trenches.

Rev. Parker declared that the American woman will not be found wanting, but in the hour of the greatest need and crisis the world has ever known, will rise to all that is expected of her and acquit herself as gloriously as the women of old England and France and Belgium.

LIEUT. ROSSITER TO SPEAK HERE NOV. 27

The coming of Lieut. Ivan S. Rossiter to Mishawaka is being looked forward to with keen anticipation. He will speak in the high school auditorium Tuesday evening, Nov. 27, under the auspices of the high school history class. Very few who have education and ability to tell what they have seen are permitted to escape from Germany after having Lieut. Rossiter's opportunities to see Germany from behind the lines as she really is.

This young Canadian from Medicine Hat volunteered and went to France in 1914 as a member of the famous Canadian mounted rifles. He is a veteran of Loos, St. Eloi, Hooge, Ypres and Sanctuary Wood. In this last battle he was wounded and captured. He spent nearly a year in nine different hospitals and prison camps, and was finally exchanged after which he was raised to present rank. In his address he accuses the Germans of barbarism, and relates a wonderful story of those campaigns in which he participated.

Lieut. Rossiter, while a prisoner, had his hand severed with a pair of scissors without an anesthetic. When asked why the anesthetic was not given, he was told that anesthetic was not given to "schweinhunds."

Resinol

surely did knock out that eczema

Three days ago, my arm was simply covered with red, itching eruption and I thought I was up against it for fair. But Joe had a jar of Resinol in his kit. I used a little and the itching stopped right off. In the morning most of the redness was gone and a couple more applications finished it up. Resinol is sold by all druggists.
